Subject: Request for Clarification Regarding the Issuance of Diplomatic Identification Documents by the International Organization Völkerrecht (IOV)

Dear Mr. Küger,

The Embassy of the Republic of Albania in Berlin acknowledges receipt of the notification from the International Organization Völkerrecht (IOV) concerning the issuance of identification documents with diplomatic status.

Following communication with the relevant authorities in Albania, we have been instructed to request more detailed information regarding this matter. We kindly ask you to provide clarification on the following points:

1. The legal status of the International Organization Völkerrecht (IOV) – both at the national and international level.
2. The legal basis or international agreements underpinning the issuance of diplomatic identification documents by the IOV. Kindly note that Articles 10 and 11 of the Geneva Convention IV (1949), often cited in similar contexts, do not specifically provide for the issuance of diplomatic documents.
3. The intended purpose and practical use of the diplomatic identification documents issued by the IOV.
